

SCREEN TIME FOR KIDS: *new recommendations*

The longtime "no screen time before 2" rule is out. Here are the latest recommendations from the American Academy of Pediatrics.

18
months
or
younger

No screens are still best.

The exception is live video chat with family and friends.

18
months
to 2
years

Limit screen time and avoid solo use.

Choose high-quality educational programming, and watch with kids to ensure understanding.

2 to 5
years

Limit screen time to an hour a day.

Parents should watch as well to ensure understanding and application to their world.

6 or older

Place consistent limits on the time spent and types of media.

Don't let screen time affect sleep, exercise or other behaviors.

Set family media-free times, like meals or driving, and media-free zones, like bedrooms.

Continue discussing online citizenship and safety, including treating others with respect online and offline.
